

# TANTOLUWA ALABI

## FRONTEND DEVELOPER

### PERSONAL PROFILE

I am a self-taught Frontend Developer passionate about the tech community and committed to personal growth. I believe that communities are a catalyst for growth, and I am an active member of various tech organisations. I have actively volunteered for different organisations and events. I have experience in working with others to achieve a certain objective on time.

### WORK EXPERIENCE

#### Junior Frontend Developer

THE EFICO APRIL 2020 TO MAY 2020

- Interpreted design to code
- Worked with a team of three and used Git to store our project files
- Built an edutech site from scratch using HTML, CSS, bootstrap and pure js.
- Made my code clean and made use of semantics to make it easier to read for the backend guys

#### Junior Designer

WAL & JOE'S DESIGN FIRM, 2016 TO 2017

- Assists the Senior Interior Designer in design projects
- Creates design proposals and project assessments
- Prepares regular reports on ongoing projects
